Summary

Innovative, task-driven professional with 2+ years of personal and freelancing experience in web design and development. Equipped with a record of success in consistently identifying and providing technological needs of clients through ingenious innovation. Proficient in developing databases, creating user interfaces, creating backend for the websites / web applications, writing and testing codes, troubleshooting simple / complex issues, and implementing new features based on user feedback.

Following are the technologies that I often use in building the projects / websites:
- Plain JavaScript
- TypeScript
- ES6
- Git / GitHub
- React / NextJS
- React Redux
- CSS, SASS, Bootstrap, TailwindCSS, Styled Components
- NodeJS
- Firebase / Firestore
- Figma for designing purpose
And many more...

Experience

Frontend Developer
